

## **Indoor Outdoor Rug Use and Care Guide**

### **How to care for your polypropylene outdoor rug**

To prevent stains, clean up spills as quickly as possible to avoid them from setting in. For any stains that may occur, you can gently rub with a solution of mild dish soap and water. You can also hose down your rug and if you place the rug over a railing, water will run off and the rug will dry quickly. In severe weather and when you know you won't be using the rug for long periods of time; make sure the rug is dry and then roll it up for storage.

### **Using outdoor rugs indoors**

While many outdoor rugs can be used indoors, you will want to vacuum the rug regularly to keep dirt from getting ground into the fibers. Make sure to get an appropriate rug pad to protect your floor and prevent slipping.
